

Frozen Straw Mushrooms

TECHNICAL DATA SHEET | COMMERCIAL SPECIFICATION REFERENCE

We supply frozen straw mushrooms as cut or halved mushroom pieces for hot-pot portions, soup components and cooked prepared meals. We agree size, trim, defects, packing and lot documents around your application.

Revision 1 | 16 October 2026 | GreenLand-food

We agree final acceptance limits, sampling methods, intended use and packing before supply. This product sheet is not a certificate of analysis or a batch test report.

01 Physical and sensory

Parameter	Specification / agreement	Verification
Presentation	cut or halved mushroom pieces	Approved representative frozen sample
Appearance	pale cut flesh with the darker outer surface retained where appropriate; no foreign or deteriorated odor.	Frozen inspection and agreed cooked evaluation
Size and trim	piece dimensions, cut consistency and the share of loose fragments; limits agreed before order.	Recorded measurement method and sample weight

02 Physicochemical and residue controls

Parameter	Specification / agreement	Verification
Residue program	Pesticide and contaminant criteria selected for the ingredient, origin and destination.	Agreed test scope, method and reporting limit
Yield / moisture	Evaluate released liquid or usable yield only under the agreed preparation method.	Trial record; no untested numerical guarantee

03 Microbiological criteria

Parameter	Specification / agreement	Verification
Test panel	Agree relevant organisms, sample plan, units and limits for intended use.	Lot-linked report where commissioned
Use declaration	For further cooking; no ready-to-eat status implied by freezing.	Approved SKU declaration and validated downstream process

04 Freezing and cold chain

Parameter	Specification / agreement	Verification
Freezing style	Confirm loose-frozen or portion-group presentation and handling allowance.	Pack inspection and lot process record
Storage	Maintain at -18 C or below, subject to approved SKU and label requirements.	Temperature records; investigate excursions and thaw evidence

05 Pack size and shelf life

Parameter	Specification / agreement	Verification
Net weight	Bulk liner/carton or agreed foodservice/retail pack; final weights by quotation.	Net-content and seal checks
Shelf life	Assigned to the actual SKU, process, packaging and storage conditions.	Approved shelf-life basis and best-before code

06 Process controls

Parameter	Specification / agreement	Verification
Preparation	Base trimming, halving or cutting, cleaning and declared pretreatment; actual route recorded by lot.	Current process sheet for proposed SKU
Post-process handling	Review drainage, freezing, packing and storage conditions.	Lot record and agreed verification points

07 Ingredients, additives and allergens

Parameter	Specification / agreement	Verification
Ingredient declaration	Confirm the named product and all processing aids or additives used for the order.	Signed ingredient and process declaration
Allergen assessment	Review ingredient status and shared-line cross-contact for the destination.	Supplier declaration; no blanket allergen-free claim

08 Defects and foreign matter

Parameter	Specification / agreement	Verification
Product defects	residual growing material, damaged tissue, excessive fragments and unwanted dark deterioration; limits and sample basis agreed.	Representative packed-sample inspection
Foreign material	Review unwanted plant material, soil and other foreign matter.	Sorting and agreed detection/inspection records

09 Packaging materials and label

Parameter	Specification / agreement	Verification
Materials	Food-contact liner and outer carton suitable for the agreed frozen distribution.	Material declaration and pack approval
Label	Product name, ingredient, lot, net weight, storage and intended use; destination requirements checked.	Approved artwork and carton marks

10 Detection and traceability

Parameter	Specification / agreement	Verification
Detection program	Confirm equipment, verification pieces, check frequency and reject handling for the SKU.	Relevant line verification records; no invented sensitivity
Traceability	Link raw-material lot, production, packing and shipment identifiers.	Lot record, packing list and shipment file
